### DESCRIPTION:

**Bank Summary Reports** provide a quick understanding of an institution's current status and recent trends.

Each report has five quarters of data, side-by-side with comparisons in key areas such as asset size, capitalization, profitability, asset quality and, of course, **BAUERFINANCIAL'S** star-rating.

By comparing the institution's data for the current quarter with the four most recent quarters, trends and anomalies stand out. The report provides both a quarter-to-quarter comparison (current to one year ago) and a full year's performance. The data is a mixture of dollar amounts and ratio calculations to facilitate comparative analysis.

### REPORT HIGHLIGHTS (5 quarters):
